

a whole new way of Creating & Sharing

FOR EDUCATION: LEARNING WITH BUNCEE!

buncee is a whole new way of creating and sharing lessons, projects, study guides, stories, and homework online or mobile in a unique, fun, and interactive way.

What is buncee.com?

buncee's easy to use online or mobile canvas lets you create a 'digital index/flash card/lesson plan' full of information, notes, images, videos, web links, audio, and more! Students or teachers can instantly share their work online via email, social, or text messages from buncee's mobile app. Anyone can create a basic account on buncee.com for free!

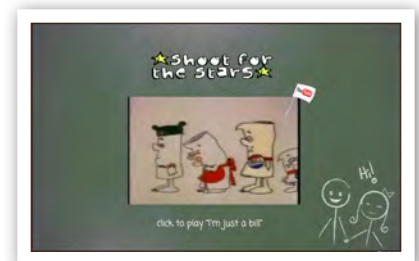

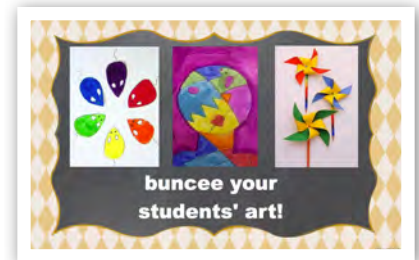

How can buncee help Teachers?

- ✓ Create interactive lesson guides that contain web links, images, or videos to supplement your study topics
- ✓ Younger students enjoy creating holiday greetings for their friends & family while learning computer skills
- ✓ Save, store, and present up-to-date research and information that students can view, comment on, and share
- ✓ Create digital flash cards to help students prepare for quizzes or tests - the visual appeal and fun designs keep students engaged with the content
- ✓ Teachers control whether their bunces are private or public for the class to review and share
- ✓ Accessible via the web from any platform letting you view your bunces anytime, from anywhere!

How can buncee help Students?

- ✓ buncee is an easy to use platform for preparing class work or online research required to complete homework and lessons
- ✓ Encourages creative presentation skills using digital tools that help students collect online information storing notes and links
- ✓ Explore creativity by creating stunning digital greetings, artwork, holiday cards and more - great for younger students
- ✓ Create interactive study guides to help them prepare for classwork, tests, and quizzes which they can instantly share with classmates for discussion and group assignments
- ✓ Capture and collect research information 'on-the-go' using buncee's mobile apps and share them instantly

The buncee digital canvas...

buncee's easy to use digital canvas lets users access visual and other elements with a few clicks. There are hundreds of designs to choose from or click the social icons to add content from YouTube, SoundCloud, Flickr, Web, or Instagram!

Creating presentations and lessons that incorporate web sources has never been easier! The two slides on the left are filled with links that lead to the videos and articles shown on the right.

Click the slides to see the final buncee online...

buncee gives back:

It is the hope of the creators of buncee that by building an easy platform for users to enjoy a fun and interactive way to create and share their memories, interests, causes, greetings, and more, buncee will become a platform used by millions and in turn help generate proceeds to raise awareness and funding to find the cure for DBA. To read the full story behind buncee's philanthropic efforts and to learn more about DBA, visit the Daniella Maria Arturi Foundation website at:
